## Allergy shots during COVID-19 Pandemic

All patients have been previously informed that allergen immunotherapy is best suited to be given in our medical office since, under ordinary circumstances, this ensures patient safety and the best patient outcome. This unprecedented viral pandemic presents us with a situation where patient's risk of becoming sick by coming to the office may be greater than the risk of having an adverse event from allergen immunotherapy.

Our medical office is intending to remain open during the pandemic to help provide medical care, including allergen immunotherapy. We also recognize that there may be a time where we will be ordered to or have no choice but to suspend the medical clinic.

**For all patients interested, we will provide allergy serum, dosing instructions, and syringes for allergen immunotherapy through April 30, 2020.** Please provide **advanced notice** to have the supplies available. We will be available for patients to pick up their supplies after standard clinic hours **at the FRISCO OFFICE ONLY** on:

**Friday 3/20 and 3/27 from 3:00 - 5:00 PM**

**and**

**Saturday 3/21 and 3/28 from 9:00 – 12:00PM** Thank you

A handwritten signature in black ink that reads "Eric Schmitt, MD".

**Eric Schmitt, MD**
